

Expert on Demand (non-promotional modules): Building awareness, expertise and connections across the UK ATTRv-PN community

The Expert on Demand programme is organised and funded by AstraZeneca, managed by Distance Learning Providers, and intended for UK Healthcare Professionals. This leavepiece describes the available non-promotional modules within the programme only.

What is ATTRv-PN Expert on Demand?

Expert on Demand is a **peer-to-peer medical education programme** focused on ATTRv-PN, designed to **facilitate meaningful discussions** between HCPs and experienced clinical experts.

Format

- 30-minute virtual meeting (one-to-one or with colleagues)
- Structured presentation and interactive discussion
- Specialty-specific content delivered according to the audience's clinical focus

Objectives

- Share insights and best practice
- Foster collaborative peer-to-peer exchange
- Answer any specific questions

What modules are there to choose from?

Module 1: Introduction to ATTR amyloidosis

- Speciality-specific content
- Multisystemic presentation and 'red flags'
- Diagnosis

Module 2: Building capability within the UK Amyloidosis Network

- Referral pathways
- Spoke-centre model
- MDT collaboration

Meet with an expert faculty across various specialties involved in ATTRv-PN care:

Cardiologists

Carol Whelan
London (National Amyloidosis Centre)

Will Moody
Birmingham (Midlands Amyloidosis Service)

Lucia Venneri
London (National Amyloidosis Centre)

Rob Cooper
Liverpool (Liverpool Heart and Chest Hospital)

Neurologists

James Holt
Liverpool (The Walton Centre)

Katy Brennan
Glasgow (Queen Elizabeth University Hospital)

Nurses

Christine Chiti
London (National Amyloidosis Centre)

Angelique Smit
London (National Amyloidosis Centre)

Gastroenterologists

Peter Paine
Manchester (Salford Royal Hospital)

Anton Emmanuel
London (University College London)

Contact your local AstraZeneca representative to arrange a session.
